

The MailFinisher 4000TN system is a small to medium volume In Line System which is interfaced with a compatible laser printer, whereby the printer feeds the MailFinisher 4000TN directly and the forms are printed, folded and sealed in one single operation, therefore, speeding up the processing and also making it easier for the operator.

The MailFinisher 4000TN is provided with a sliding base-mount and a 350 forms external output catch tray. The system requires a full desktop space to locate the machine and laser printer. Optional cabinets are available which will provide a suitable surface for the whole system and also storage beneath.

## MailFinisher 4000TN

Precision equipment ready to save time, money and resources.

The system is compatible with the following printers which provide up to 1,000 sheet in-feed capacity (based on 80gsm paper).

HP LJ4200TN

HP LJ4250TN

HP LJ4300TN

HP LJ4350TN

HP LJ4014TN - (New model)

HP LJ4015TN - (New model)

HP LJ4515TN - (New model 60ppm)

Other laser printer models are also compatible with the MF4000 including OKI, Lexmark, Samsung and Kyocera and other HP models, please check with us for suitability. Please note the following: The laser printer is not unique to this machine; it can still be used as a normal office laser, either by separating the laser printer from the MF4000 or by using the optional 'Print Only Mode'. The processing speed of the system is regulated by the page per minute speed of the printer.
